INTERNSHIP

Intern − EI Systems   Since March 2023
SDE Intern

- Integrated **Google Ads** and **Bing Ads** APIs into the company's backend infrastructure using **Django**.
- **Tech stacks used**: Django, Python, REST APIs, PostgreSQL

PROJECTS

UMS - University Management System:

- Developed a comprehensive University Management System (UMS) using Java and Swing for creating a robust desktop application.
- Implemented the system which manages various university operations, such as student registration, course management, and grading, providing a user-friendly interface for administrators, faculty, and students.
- **Tech** : Java, Java Swing, SQL.

SpeedyBites - Food Ordering Website:

- Developed SpeedyBites, a dynamic food ordering platform built using Django.
- Implemented UI that allowed users to browse menus, place orders, and track deliveries in real-time. The back-end is powered by Django's robust framework, ensuring a smooth and secure user experience, with integrated payment gateways and user authentication for enhanced functionality.
- **Tech** : Python ,Django ,SQL, HTML, CSS, Bootstrap.

Automatic Class Attender

- Automated the process of attending online classes by scraping the timetable and using it to automatically join scheduled sessions.
- Created an application that scrapes the university or class portal to extract the class schedule, including class links, timings, and subjects.
- **Tech** : Python, BeautifulSoup , Selenium, Schedule/Time

CERTIFICATES

- IBM Back-End Development , Coursera   March 2024
- AWS Cloud Solutions Architect, Coursera   February 2024
- Java FullStack Developer, Coursera   November 2023
